About Me

I am a passionate and detail-oriented Junior WordPress Developer with hands-on experience gained at SkillWill, where I learned **PHP**, **Elementor**, and **WooCommerce** for building and customizing WordPress websites. Currently, I am expanding my skills in Front-End Development through courses at GITA, focusing on **HTML, CSS,** and **JavaScript**. In the future, I plan to learn **React** to further enhance my development skills. I love learning, exploring new technologies, and continuous growth, and I am committed to never stopping in my pursuit of knowledge and professional development. I enjoy turning design concepts into fully functional, responsive, and user-friendly websites and am eager to contribute my skills to a dynamic team.

Education

Skillwill 03/2025

WordPress Development

- Installing and configuring WordPress.
- Understanding WordPress themes and child themes.
- Basic understanding of WordPress security best practices.
- PHP basics .
